

The Scottish Rock Garden Club

Forrest medal Stirling 2019

Narcissus bulbocodium obesus 'Lee Martin'

Shown by David Millward

Congratulations to David Millward on winning a second Forrest medal with this magnificent pan of Narcissus bulbocodium obesus, the clone which also won a Forrest for the late Bill Robinson, whose generosity means that several Scottish growers now cultivate it. Dave does it Best!

He also won the Glassford Sprunt Prize for the best pan of bulbs in a 19cm pot with another pot of 'Lee Martin'. You can see both pots in the picture below.

Thanks to Stan da Prato for the pictures. For the first time since it started I missed our local show. From Stan's pictures I can see just how stiff the competition was.

Well grown David.
